**Friday: No Homework** Read for 30 minutes and record in Reading Log

Lunch time: 12:45-1:11p.m.

Voicemail number 407.876.7500 ext.4257

Dear Parents,

I can't THANK YOU enough for all that you do to make our classroom run smoothly. I was so pleased with our Johnny Appleseed activities. The kids loved it! Mr. Mitchell taught the lesson. Mrs. Carroll, and Mrs. Burnette helped in the classroom and a BIG thank you to those of you that sent in supplies.

The Fall Festival was a great hit! The events that took place and the food was remarkable. However, the shining stars were the Second Grade Class that performed. Wow! They were AWESOME. Thank you again for coming out and supporting our school.

The skills we are working on are comparing and contrasting and reviewing sequence of events. We need to really explore this in order to gain better comprehension skills. We are still working on phonics long vowels and CVCe patterns, two sounds for g, review of two sounds for c. Vocabulary consists of compound words and nature words. In Language Arts we want to increase our sentence structure by adding a few more words. 6- 8 words in a sentences is a great beginning length for 2<sup>nd</sup> graders. Math is moving into chapter 3. Numeration and place value, subtracting more difficult problems, working with money and telling time. Writing is coming great. The kids are beginning to understand the maps we use and are starting to put them into use daily. On occasion, I will send home the spirals so that you can see what we are doing in class. Publishing will start soon and this spiral is where we get our stories.

If you have questions, please call or send in a note. My email is [snyderle@ocps.net](mailto:snyderle@ocps.net).

Sincerely,  
Lori Snyder
