

BM Fountain Of Youth

Ponce de Leon, who had become wealthy in the colonial service with a fortune of \$86,345,237, set out to find the mythical Fountain of Youth at the age of 53 in the year 1537. As we know, he never found the Fountain of Youth. Years later, BM students discovered the Fountain of Youth that Ponce De Leon was unable to find.

1. How many years have passed since Ponce de Leon unsuccessfully tried to find the Fountain of Youth?
2. Write the number 86,345,237 in expanded form.
3. What is the place value of the digit 6 in the number 86,345,237?
4. Round the number 1537 to the nearest tens.
5. Is the number 53 a square number?
6. How much money was spent building the three fountains on our lot if the builder got paid \$13.42 dollars per hour?

Days Worked	Time Worked
Friday	4:00 PM to 10:00 PM
Saturday	36,000 seconds
Sunday	Twice as many hours as Saturday
Monday	$N \div 3 = 0$

7. Aren't you happy that you can quench your thirst on your own Fountain of Youth?
