

Rockets and Newton's Three Laws of Motion

SC.C.2.2.1, SC.C.2.2.2, and SC.C.2.2.3

Students will use the three laws of motion while building and experimenting with various types of rockets. Students will learn that rockets work according to Newton's laws.

Students will build and experiment with:

- A. Water Rockets
- B. Parachute Rockets
- C. Step Rockets

If you need information on how to implement this science project don't hesitate to contact Mr. Mariaca by e-mail. mariacr@ocps.net
